

AUTODESK® REVIT® ARCHITECTURE

AUTODESK® CERTIFIED USER EXAM

Are you an aspiring building design and construction professional? Would you like to expand your Autodesk Revit® Architecture software skills and prove your proficiency?

Advance your career by becoming an Autodesk Revit® Architecture Certified User. Whether you're a student or a professional, this software certification will validate your skills, fulfill academic and industry requirements, and boost your design career.

ACU EXAMS

Autodesk Revit® Architecture Certified User program is for those who are relatively new to the software and want to prove their basic proficiency.

The Autodesk Revit® Architecture Certified User Exam includes multiple-choice and performance-based questions. Following are some examples of software aspects covered in the exam:

- Navigating the user interface and managing files
- Working with views, including creating camera views
- Creating levels, walls, doors, and windows
- Handling components, columns, and grids
- Creating stairs, railings, roofs, and floors
- Sketching, annotating, and scheduling

Before you take the Certified User exam, we recommend that you complete out [Revit Architecture Zero To Hero course](#).

QUESTIONS AND ANSWERS

When do I get my proper certificate from Autodesk?

You will be able to download your certificate from the Certiport website after the exam - usually takes a bit time for it to be generated.

When do I get my results?

You will get the scores straight away after the exam on screen.

When do I get access to the accredited logo?

You should receive an email with instructions from crepitant.com and you will be able easily download the logo and certificate.
