

# VIRTUAL STUDENT

Attend a real-time class without leaving home

Enjoy classroom learning but can't always get to the classroom?

## Introducing **Virtual Student**

Virtual Student is for you if you want to learn in a real-time class but from home or your workplace. Sounds weird? Read on!

### **How it works:**

We'll link you into one of our live real-life, real-time conveniently-scheduled classroom sessions. You'll take part in classroom training from your own home or workplace, watching and listening to the instructor as he takes a class of real, warm-blooded people at one of our training centres. You'll have the opportunity to ask questions and you'll practise your skills on your desktop just as if you were there.

We'll send you a training manual and all the details on how and when to log into the class – and we're always here to answer your questions before, during and after your class.

## **WHY PEOPLE CHOOSE VIRTUAL STUDENT:**

- It's hands-on, live, interactive group training from a professional, qualified instructor with years of industry experience.
- No matter how far you are from one of our centres, you can benefit from any one of our training courses: it opens up a whole new world of opportunity and growth for you.
- You learn in your own home. You don't spend anything on travel or accommodation, and you don't waste time travelling to a classroom.
- Social learners enjoy the classroom experience and many of our groups have remained in contact as peer mentors.
- All you need is a computer and access to the internet. We'll send you the rest of the tech you'll need, and it's simple to set up.
